

CS699 C1 – Spring 2019  
Final Examination Information

- Date and time: 5/8, 6 – 8:45 PM
- Location: CAS 211
  
- The exam has two parts
  
- Part 1: Closed book, closed-note; 10 multiple choice questions; 30 minutes.
  
- Part 2:
  - Closed-book; However, you can bring any printed material, including hand-written notes.
  - You may not use any computing devices, including mobile/smart phones, tablet computers, and laptops.
  - The exam covers all material discussed this semester. You need to study the textbook, online lecture, and the lecture slides, except case studies.
  - There will be about seven to ten problems. Some problems may have a few subproblems (e.g., Problem 1-1, Problem 1-2).
  - There will be no questions on how to use Weka, JMP, or Oracle. However, some screenshots of Weka may be used as part of a problem statement.
  - You need to do sufficient preparation, including manual calculation practice, for the exam. Otherwise, you may not be able to solve all problems within the allocated time.
  - You need to bring a calculator with a “log” function.
